Sharon, do you have a minute to talk? I'm out of office and can't find your number. Please let me know when you're available and what number to call you on. Thanks.

Dan

Hi,
Thank you for attending today's meeting. Attached are the Settlement Agreement and SOWs in Word. As we discussed, we will need to have your redline/strikeout on these documents by no later than September 23rd. Again, Jennifer would be happy to discuss technical issues and answer any questions your technical folks may have during the first two weeks of September. Please have them contact Jennifer directly at 212-637-4328 or at lapoma.jennifer@epa.gov. I am always available to answer your questions as well.

One thing we did not discuss during today's meeting is a date for a follow-up meeting in October, after EPA has had an opportunity to review your comments. I will be in touch in mid-September to figure out a date.

Thank you for your cooperation. Enjoy the rest of the summer.

Sharon
